## Helpful Information About Unemployment Insurance

The COVID-19 pandemic has resulted in many individuals in the State of Ohio needing to file for Unemployment Insurance (UI). The outcome is a record number of claims being filed both by phone and through the State of Ohio's website. Governor Mike DeWine issued an Executive Order waiving certain unemployment insurance (UI) requirements for the COVID-19 impacted individuals. The measure was taken in order to expedite the processing of benefits for individuals who lose their jobs as a result of the pandemic and allow them to receive their first benefit payments as quickly as possible.

Unemployment Insurance Operations has created a tool in to expedite benefits. Some employers may know this process as the "mass layoff process" or "WARN-related." However, this tool is for ALL employers to distribute to their employees impacted by COVID-19 pandemic for quicker processing of their claims. This "generic" MLO, 2000180, will eliminate the need for an employer, to call UC Technical Services and file for a MLO Number.

The following points summarize the impact that the Executive Order has on individuals affected by COVID-19 related separations from employment:

- Individuals who are partially or totally unemployed due to the coronavirus (COVID-19) outbreak may qualify for unemployment benefits.
- Individuals who are under mandated quarantine or isolation as requested by the employer, medical professional, or by a local health authority, he/she may qualify for unemployment benefits.
- Eligible individuals will be paid for their first week of benefits and will not be required to serve the traditional one-week waiting period. Claimants will, however, be required to file a claim for each week that they are unemployed.
- Eligible individuals must meet the weekly requirements that they be "able and available for work," however, the requirement that they actively search for work while receiving benefits has been waived.
- Eligible individuals are also exempt from completing traditional reemployment requirements.
- Individuals who decide to self-quarantine and quit their job, will not be eligible for unemployment benefits

In order to speed the processing of unemployment benefits for eligible individuals, the Ohio Department of Job and Family Services is instructing individuals who file unemployment claims to use the mass lay-off number **2000180** during their application process. This number will assist the agency in tracking COVID-19 related claims. Claimants, if you have already filed an application, no need to worry about adding the mass-layoff number. Your application will be processed.

An initial claim for UI can be made by phone at **877-644-6562**, TTY 1-614-387-8408, (excluding holidays) Monday through Friday 7:00 a.m. - 7:00 p.m., Saturday 9:00 a.m. - 5:00 p.m., and Sunday 9:00 a.m. - 1:00 p.m. or online 24/7 at **[www.unemployment.ohio.gov](http://www.unemployment.ohio.gov)**. Anyone who has previously had a UI claim will still have a PIN number that is used to access the website. The PIN reset number is 866-962-4064.

After the initial claim for UI is made, an individual must go in each week to file their claim for that week. If a claim is not made each week, that week will not be paid. All weekly claims are completed on the [unemployment.ohio.gov](http://unemployment.ohio.gov) website.
