

Results@Hand ConferenceBeat Event App User Guide

Fiscal Symposium

To log into the web-based app visit app.resultsathand.com/ojfsdaaug26 and enter your email and passcode **Fiscalfun26**.

To download the app to any of your devices search **R@H ConferenceBeat Event App** and select **OJFSDA 2026 Fiscal Symposium**.

Profile: Personalize your profile, manage your sharing and account settings, and upload a photo to enhance networking.

Event FAQ: Find answers to frequently asked questions, including Wi-Fi access, what meals are provided, and what to do if the app glitches or is missing information.

Notifications: Receive timely updates and important information. If you'd prefer not to receive push notifications, adjust your device's notification settings.

Handouts: Print available session materials in advance if you'd like hard copies. You can also view, download, or email materials during the symposium and for up to 30 days afterward. Handouts are also accessible under the [Materials](#) tab within session listings on the agenda.

Handouts are provided at the presenters' discretion. Some sessions may not have downloadable materials, and items may be posted at any time—check back closer to the event.

Agenda: View the schedule of sessions you're registered for and explore all the symposium has to offer. Tap on non-session activities that interest you to add them to your schedule.

Starred activities are on your schedule. You can also view your session schedule under 'My Schedule.'

Please note: The location icon (📍) indicates the room location, not the session number, which reflects the time.

Evaluations: We value your feedback! Taking a few minutes to submit your overall event and individual session evaluations helps us improve and enhance your experience.

Venue Map: Easily locate session rooms, restrooms, and designated food and beverage areas, which will be available during scheduled times.

Directory: View a comprehensive list of everyone participating in the symposium. Select a name to see contact details or choose [Actions](#) to send a connection request and enable in-app chat. Responses appear in [My Messages](#) in the sidebar. You can also add people to your [Favorites](#) to create a personalized contact list.

Sponsors: Learn more about our sponsors and take personal notes to revisit later.

Support: Need help? Enter a subject and brief description so we can assist you quickly.
